This diagram illustrates the exploded view of a power tool handle assembly. The components are numbered as follows:

- 1:** The main handle body, shown in a perspective view at the bottom left.
- 2:** The rear housing or trigger guard component.
- 3:** A small circular component, likely a button or switch, located between the handle and the trigger.
- 4:** The trigger gun component, shown in a perspective view.
- 5:** A curved bracket or support piece.
- 6:** A long screw or bolt used for assembly.
- 7:** A long, thin component, possibly a trigger bar or internal linkage.

The diagram uses solid lines to show the components and dashed lines to indicate their relative positions and assembly paths. A green abstract graphic is visible in the background.

D 525 İLK HANDLE

This exploded view diagram illustrates the assembly of the 525 İLK HANDLE. The components are numbered as follows:

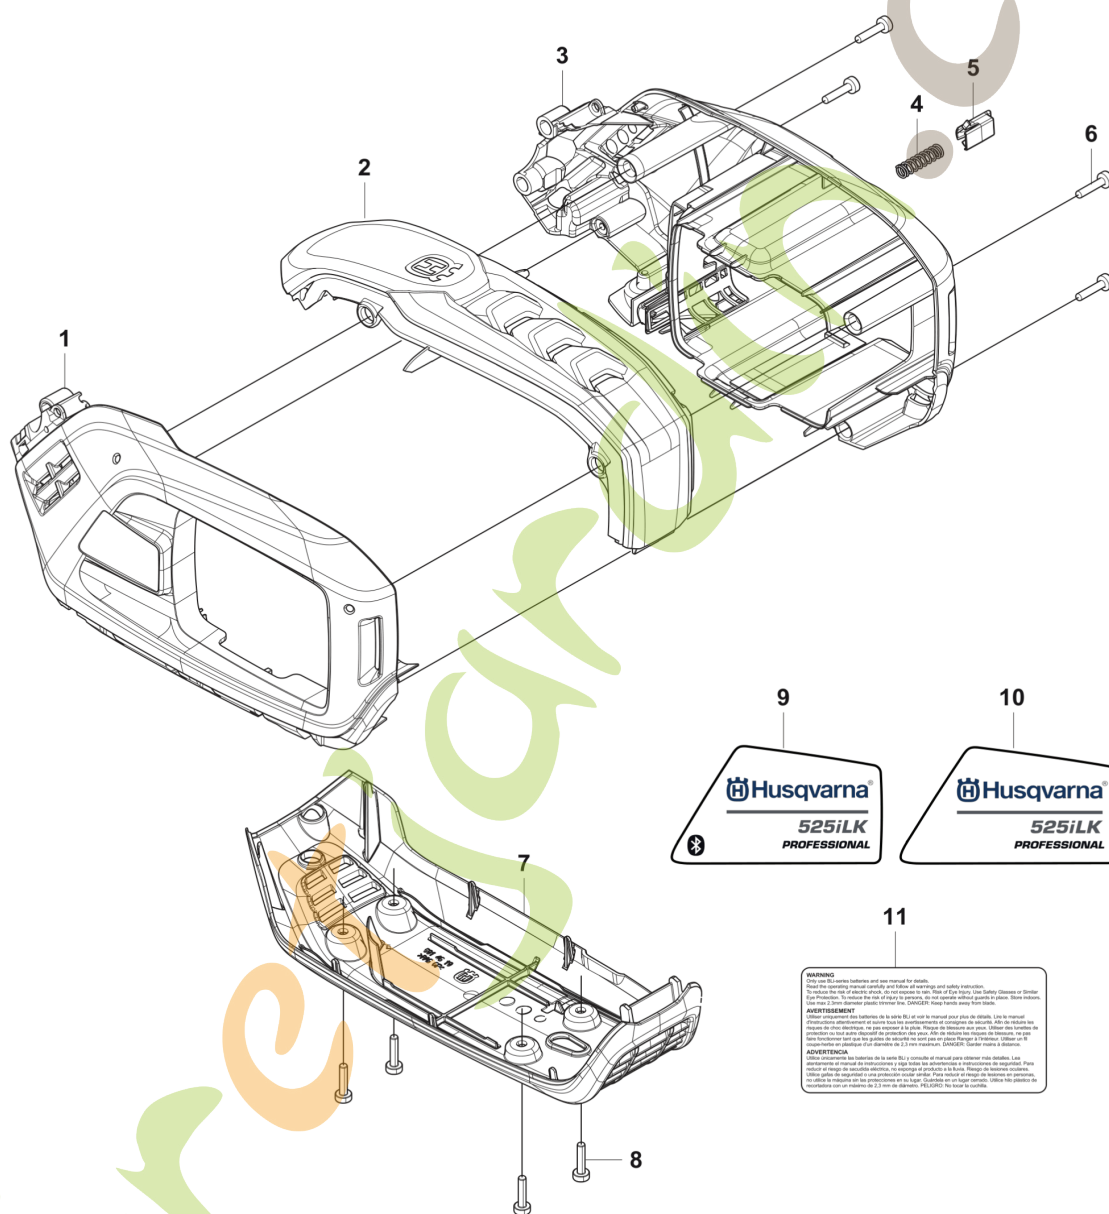

- 1**: The main handle body, shown in a perspective view at the bottom left.
- 2**: The upper handle housing or bracket.
- 3**: A small circular component, likely a seal or O-ring.
- 4**: A trigger gun assembly.
- 5**: A curved metal bracket or link.
- 6**: A long, thin metal pin or bolt.
- 7**: A long, thin metal pin or bolt.

The diagram shows the handle body (1) being connected to the trigger gun (4) via the seal (3). The trigger gun (4) is then connected to the curved bracket (5), which is further linked to the upper housing (2) by the long pin (6). The upper housing (2) is secured to the main handle body (1) by the long pin (7). The diagram also shows several other pins and bolts that are part of the assembly process.
